Regarding Hokkaido Earthquake (First Report)

Hereby we report on the damage situation and production forecast at our company after the earthquake that occurred in the Southwest Region of Hokkaido on Thursday, September 6, 2018 around 3:08 a.m.

Notice

1. Disaster site: DYNAX Corporation

Headquarters (Chitose-city, Hokkaido Prefecture)

Tomakomai Plant (Tomakomai-city, Hokkaido Prefecture)

2. Time of disaster : September 6, 2018, 3:08 a.m.

3. Situation : (human casualties)

1) No employees suffered injuries

2) Employees present at the company at the time of the earthquake were instructed to return to their homes

(material damage)

1) No significant damage to buildings

2) No significant damage to equipment

However, as we suffered a power outage, we will make careful judgments when the power supply is restored.

4. Production forecast: We will assess the situation and determine whether we will resume production on September 7
